To

All Fertilizer Companies

Sub: Road Freight rates for Urea manufacturing/importing units under Uniform Freight Subsidy Scheme.

Sir,

This is to inform that the normative rates for movement of fertilizers from rake point to district under the uniform freight subsidy scheme as circulated vide order no. 12012/9/2007-FPP dated 1st Sept., 2011 and 21st May, 2012 have been uploaded in FMS.

2. All fertilizer companies are requested to generate the differential freight claims for secondary movement for the period from April 2008 to February 2009 manually and from March 2009 onwards through FMS module. The differential claim shall be processed at the lower of the two rates wherever two different rates have been provided for a district. No differential claim will be generated for missing districts which are not in circular dated 1st Sept., 2011.

4. To generate differential freight claim, fertilizer companies have to update the actual freight incurred. The link for the same has been given under Dispatch tab → Upload Normative Road Freight.

4. The details of freight amount can be seen by generating Financial Ledger using link "Generate Differential Freight Ledger Entries" under "Generate Freight claims" tab.

Lead distances for the district shall be from FMS as on 1st April, 2012 as stated vide letter no. 12012/9/2007-FPP dated 21st May, 2012. *Please note that system would generate negative claim in case Total amount payable is negative.*

5. The rates for direct movement of fertilizers from April, 2008 is yet to be notified by DoF. Therefore, the differential claim for direct movement will be generated as and when the rates for direct movement are notified by DoF.

6. You are requested to examine the freight ledger properly before generating freight claim. In case of any discrepancy is noticed, please inform us immediately and do not generate freight claim unless it is rectified.

Yours faithfully

(Madan Lal)
